Citi Investment Research and independent, third-party research ratings may be shown for certain securities. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. Citi Investment Research stock recommendations include an investment rating and risk rating. The Investment Rating Code (1, 2 or 3) is a function of Citi Investment Research's expectation of total return (forecast price appreciation and dividend yield within the next 12 months) and a Risk Rating. The Risk Rating (L, M, H or S) represents the stock's expected risk, taking into account price volatility and fundamental criteria. Please refer to the end of this statement for a guide describing Citi Investment Research ratings. Independent, third-party research ratings have been normalized by such third-party providers to a 1 (Buy), 2 (Hold), and 3 (Sell). Citi Investment Research is not the author of, does not take responsibility for, and does not guarantee the accuracy, completeness, or timeliness of the independent, third-party research. Except as noted by an asterisk (*), each independent research provider was selected by an Independent Consultant as required under the Global Research Analyst Settlement.
